

English

Students explore stories with characters, clear events and endings. They read simple decodable texts and picture books. They learn how characters and events are shown in words and pictures. Students write retells of familiar stories, using basic sentence punctuation, learnt vocabulary and letter and sounds to spell words.

Mathematics

Students make connections with numbers to at least 20. They learn to understand collections up to 10 in different ways. Students learn to show quantifying, equal sharing, adding to and taking away from collections to at least 10. Students compare the size of collections to at least 20 and copy and continue repeating patterns.

French

Students learn about the location of French speaking countries using maps. They look at how these countries are near or far from Australia and/or countries of their families.

The Arts

Music

Students keep the beat to simple rhymes and songs. They listen for high and low sounds and changes in speed.

Dance

Students engaged in Dance learning in Term 3.

Humanities & Social Sciences

Students learn why Country/Place (the land and sea) are important to First Nations Peoples. They find out how Country/Place gives First Nations Peoples what they need, and how First Nations Peoples take care of Country/Place in return.

Science

Students engaged in Science learning in Term 3.

Technologies

Students learn how to use diagrams and pictures to show designs for toys they could make. They learn how designers use joining and cutting when creating designs and the importance of safe use of materials and equipment.

Health & Physical Education

Students learn to use safety symbols and rules in the community to make safe choices. They learn about choices for road safety. Students learn why being active is good and how rules help make games fair and include everyone.

2026 Improvement Agenda

Investigating world's best practice in pedagogy for reading, mathematics and student wellbeing and making it our best practice.

Approaches to teaching and learning

At Brisbane Central we use a varied and balanced approach to teaching so that every child has the best opportunity to learn and thrive. We carefully select teaching methods to suit the curriculum content, the needs of our learners and the learning goals. No matter the approach, student engagement is always at the core of everything we do. Two key strategies we use are explicit teaching and inquiry learning.

Explicit teaching involves clear, focused instruction where teachers guide children step-by-step through new concepts and skills. This method helps children build strong foundational knowledge and provides opportunities for active participation, guided practice, and application of their learning. Explicit teaching is especially effective for building literacy, numeracy and other essential skills.

Inquiry learning provides children with the skills and opportunities to take ownership of their learning. Students ask questions, investigate topics and explore ideas. This approach fosters curiosity, critical thinking, and problem-solving skills, helping children to make meaningful connections between their learning and the real world.

By using both explicit teaching and inquiry learning, we create a rich and well-rounded learning experience. This not only helps your child develop important skills and knowledge but also inspires a lifelong love of learning.

Learner Assets

At Brisbane Central teachers explicitly teach, notice and celebrate learner assets, helping students to understand that learning is not just about getting the right answer, but about developing habits and skills they can use throughout life. Learner assets also provide a shared language between students, teachers, and families to talk about learning, strengths and next steps.

Contributor – *Courageous & Responsible* - Takes part and shares ideas

Thinker – *Open-Minded & Creative* - Makes sense of learning, asks questions and solves problems

Researcher – *Curious & Persistent* - Finds information, asks questions, explores topics more deeply

Communicator – *Respectful & Responsive* - Shares ideas clearly in different forms

Collaborator – *Empathetic & Reliable* - Works well with others, listens respectfully, and cooperates

Self-Manager – *Resilient & Reflective* - Organises themselves and learning

Positive Behaviour for Learning (PBL)

Brisbane Central State School follows the Positive Behaviour for Learning model to teach our students what behaviour is expected at school. Each week classroom teachers teach a focus lesson, explicitly teaching appropriate behaviours. All classes focus on the same lesson, and all staff are on the lookout for this behaviour being displayed. When the positive behaviour is noticed, Owlies are handed out to acknowledge the behaviour. Owlies lead to stamps in a Behaviour Passport and then to a Rewards Menu where the students can choose from a variety of rewards.

Culture of feedback

Brisbane Central State School follows a student-centred model of feedback for learning. Students are actively involved in learning experiences to understand **what** a quality piece of work looks like, **where** their work is in comparison to this and **how** to take their next step to improve.

Students do this through:

- Using displayed resources in the classroom (Improvement Wall) and targeted feedback from peers and teachers
- Engaging in multiple opportunities to produce work and analyse their own and other's work
- Applying feedback to improve

Fruit Break

Each day students have a fruit/vegetable snack around 10am. Please send your child with a piece of fresh fruit or vegetables to eat in a separate container.

No hat – Alternative play spaces

Students who do not have a hat at school are not able to play on the oval or playgrounds during breaks. Students will be directed to undercover/shaded and indoor play spaces. Please help us support your child to be sun safe.

Class teacher contact

For messages that require attention on the same day please make contact via the school office on 3230 4333. Teachers are not on email consistently throughout the teaching day. For other enquiries or information, please feel free to email the details or to request a meeting.
